EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Kowalski on February 1, 2005. Claims 2-14 are allowed.

2. The application has been amended as follows:

In claim 2, line 6, please delete the word "are".

In claim 3, line 3, please delete the word "are".

3. The following is an examiner's statement of reasons for allowance:

The deletion of the word "are" in claims 2 and 3 was due to grammatical reasons and does not effect the scope of the claims.

The prior art does not teach or suggest the claimed vaccines or methods. Birds vaccinated with the prior art's Coccivac (Schlering-Plough) vaccine (which contains *E.mivati* instead of *E.mitis*) became infected with *Clostridium sordelli* whereas the birds vaccinated with the presently claimed vaccine were not infected. Additionally, the claimed vaccine was shown to provide better bird performance as defined by feed conversion rates when compared to other prior art coccidiosis vaccines. The present invention has shown unexpected results in producing a vaccine with reduced or non-existent cross-infection that does not adversely affect bird performance.
